### **GOOD THING BOWLED** OVER AT DELMAR.

Charles C. Was Backed in the First Race as Though It Was All Over.

### MARE IN FOAL RAN GOOD RACE.

Nance O'Neill Led Her Field and Finished a Creditable Second to Judge Stead-

Intolerable heat made the races at Delmar Park seem dull and without feature yesterday, although there were a few bright spots to relieve the feeling of oppression. When prices were first chalked up on the initial race of the afternoon, it seemed as though every man who ever heard of a race horse was in the betting at Delmar, prepared to convert himself into a walking btreasury. The occasion of all the commotion, the solling of shirtwaists and ndrous display of crisp bills was the first start of a "thoroughbred" named Charles C. The horse is a 4-year-old, Charles C. The horse is a 4-year-old, and he has seemingly been under cover for the last two years just to win the six-furlong dash. The tip on Charles C, reached the bookies, it reached every one in christendom—and they were ready for the plungers with an odds-on price. This caused the people who were after a bit of the "good thing" to waver an instant and then the betting began. There was apparently but the race. Charles C was one horse in the race. Charles C. was backed from 4 to 5 to 7 to 10 in less time

one horse in the race. Charies C. was backed from 4 to 5 to 7 to 10 in less time than it takes to tell it.

The level-headed racegoers waited until the panic subsided and then got down on Frank Pearce. The result of the sprint made the Charles C. people think Old Sol had grabbed up their money. Frank Pearce proved to outclass the field, and simply galloped from flag fall to wire. The "good thing" rain a fair race, but he could not have finished better than second with several lengths the best of the start. Sister Sarah merited the confidence of the talent by winning a 2-year-old race from Josie F. It took a sharp drive through the stretch to win. however, and that after Gilmore had allowed Josie F. to drop out of it at the gtable turn. Audiphone finished last to the youngsters, but by no means a bad one. Enos had to yank his mount out a sixteenth from home to avoid throwing Varner ver the inside fence, and Audiphone was thrown out of racing stride altogether. Judge Steadman was given a breezing in the fourth race. He was held at 1 to 2 in the books, and the price seemed a good one. Though Steadman galloped home, well ridden by Dale, the second and third horses in this race furnished surprises.

Mance O'Neill and Coral foliowed the Judge past the wire in order. Nance O'Neill was as good as 39 for the place, and those who knew the mare did not think she had a chalce to finish anywhere. She is in foal to Balgowan and her race would be a credit to any horse of her class. She assumed the pace early, and when it came to a fight with the winner she clumg to him gamely, although ridden out to the last ounce.

Larse had no trouble under her good handling to win the mile race from Aurea and Lady of the West, in fast time, with fair weight up.

Ben Frost, a neglected outsider, foled them all in the closing event of the after.

and Lady of the West, in fast time, with fair weight up.

Ben Frost, a neglected outsider, fooled them all in the closing event of the afternoon. Tenny Belle and Four Leaf Clover were the choices, and seemed to have the race between them, but Ben Frost came out in the stretch, and, with clever riding, managed to last long enough to win in a hard drive. Four Leaf Clover was crowded on the rall in the finish by Ben Frost, or the result might have been different.

### ABE FRANK RAN AWAY. Accident to the Favorite in a Wash-

Accident to the Favorite in a Washington Park Event.

Chicago, July II.—An accident that may
prove the ruin of a great race horse marred
the sport at Washington Park this aftermoon. In the Maywood Stakes only three
colts went to the post—Abe Frank, Charies
W. Myer and Pentecost. The first named
was naturally a strong favorite, and much
money was bet on him at 3 to 5. Myer was
2 to 1, and Pentecost 3 to 1. While the trio
was at the post there was a false break,
and in attempting to rein up Abe Frank
Dominick, in some way, fell off. The colt
could easily have been caught had there
been any one near enough. He trotted down
the track. Some stable hunds made a halfhearted effort to stop the colt, but only
frightened him. He then started to run and
made the circuit of the track twice at almost top speed. Then he jumped the fence
and after wandering about a short time retyrned to the track and ran six furiongs
more before he was stopped. He was immediately taken to the stable, and Charles W.
Myer and Pentecost ran for the stake, the
former being a 2-to-5 shot in the change
in the betting. Myer showed the way at a
terrific clip to the stretch, but Pentecost
clung to him, and in the run home he overtook and defeated the Schorr colt amid
much excitement. The extent of AbeFrank's injuries will not be known for several days. The colt apparently escaped any
serious cuts or bruises. His owner has refused 25,000 for him.

There was another stake, The Midway,
on the card. Cambrian was the favorite,
but Pink Coat, won handily after he and
Specific, Cambrian and Rolling Boer had
had a game struggle to the stretch.

The weather was fine, the track fast and
the attendance large.

### COLUMBIA DEFEATED THE NEW DEFENDER,

Great Race and Sailed Close to the Constitution.

Newport, R. I., July 11.-Columbia won today's race in fine shape, with the Constitution second and the Independence a re markably good third. The Boston boat sailed an exciting race with the two Herreshoffs, and led the Constitution at the outer | mark, only to be beaten by her a little over two minutes on the run to the finish before the wind.

The breeze to-day was much stronger than on previous days, and the Independence salled the fifteen miles to windward without her jib topsail, and seemed to hold higher, at the same time footing just as

The result of to-day's race leaves the question of the supremacy of the three ninety footers uncertain, the Independence being not so slow after all, while the Constitution has yet to prove her unquestioned superiority to the other two yachts in anything except very light airs. The hopes of the Boston contingent have therefore gone upward with a bound, and to-night the experts are trying to figure what the Inde-pendence will do when it blows still a little anrder.

The race itself was very exciting, especially when a little less than an hour af-ter the start the Independence, by keeping near the Narragansett shore, forced the was the leading boat in the race.

Captain Haff kept the Constitution right under his lee, and was able to maintain this commanding position through the speed and pointing ability of the Boston boat, even with one less sail, the Herreshoff boat carwith one less sail, the Herresnoff boat carrying, as usual, her baby jib topsail.

On and, on sailed the rivals, the hull of the Independence being always on the sunny side of the Bristol yacht.

While they battled, however, Captain Barr of the Columbia saw his chance and took advantage of this contest between the other two yachts to slip on to windward, and he thus reached the mark nearly four minutes ahead.

Astern to him were the Independence and Constitution, each striving for the buoy, the Boston boat giving blow for blow and luff for luff in every case, and finally swinging round with the Constitution's bowspir tight over her taffrail. Two brief seconds afterwards the Constitution also turned.

Former Races Compared.

Last Saturday the Constitution beat the Independence nearly an hour to the outer mark. On Monday the Herreshoff yacht was forty minutes ahead in the ten-mile beat to the windward mark. On the run home both the Herreshoff beats pulled away from the Independence, but the gain was comparatively small, and not at all discouraging to the followers of the Boston yacht.

Shrouded in a dense canopy of fog the Columbia swept across the finish line. Three minutes and forty-two seconds afterwards came the Constitution, and right astern, by cless than a mile, sailed the Independence defeated, but not humiliated. The three crews cheered each other, the Independence tars being particularly demonstrative. tars being particularly demonstrative.

### PLANS FOR ENCAMPMENT.

First Regiment to Have Band and Five Hundred Men.

Five Hundred Men.

Arrangements were completed at a meeting last night of the officers of the First Regiment, N. G. M., at the Armory, for the part to be taken by the regiment in the annual encampment of Missouri militia at Nevada, Mo., during the week commencing July 21. Colonel Sinclair announced that the problem of securing a band had been solved.

O. J. May has been chosen as leader of the band, which is to be composed of twenty-five musicians, who will wear the uniform of the regiment. "This severs the regiment's connection with Seymour's band," said Colonel Sinclair last night. "It was not a matter of dissatisfaction with Seymour's band, but a matter of money. Our new arrangement is cheaper."

The First Regiment will be represented by more than 500 men at Nevada. Nine companies, with an average of fifty men to the company, will go. This number will be swelled by the Hospital Corps of sixteen men, the Drum and Trumpet Corps of twenty men, and the band of twenty-five men. In addition will be the field officers, staff and company officers.

An advance detail will leave this city on the night of July 18 to prepare the camp. The rest of the regiment will leave on the night of July 20 in a special train.

Four regiments and a battery, aggregating 2,500 men, will take part in the encampment. The programme for the week is not yet made out, but it will include various drils and a sham battle.

The Ideal University.

President G. Stanley Hall of Clark University of Worcester, Mass, presented his views of "Ideal University" before the National Council of Education in Y. M. C. A. Hall this afternoon. He advocated deferring reading and writing until the child was 7 or 8 years of age, and the substitution of nature study inthe meantime. From the eighth to the twelfth year the child was most teachable. The slogan should be drill and rabitation, the teaching of good habits. After the ages of 12 or 13 he advocated the bifurcating of the studies of the sexes. "The girl," he said, "should take the fine arts and the humanities, unless they intend to specialize, leaving the science, Greek, etc., to the boys."

The attendance to-day was estimated at between 12,000 and 18,000.

Kansas City, July 11.—Kansas is buying wheat to-day in every section to feed its logs, horses and cattle. Once before the eeders in that State had to resort to the earful extraversment of feeding small grain. feeders in that State had to resort to the fearful extravagance of feeding small grain. That was in 1896, when the hot winds burned up everything late in the season. Advices from the country buyers to-day show that in Central Kansas they are paying 40 cents for corn and 45 cents for wheat. Where farmers can make the exchange on even terms they are jumping at the chance, but throughout the State corn is held at a higher price, and feeders are eagerly contracting for it at the present market price. "No farmer will haul wheat to market to sell for 45 cents," said he, "and buy corn for his stock at 48 cents. He would lose 3 cents in money by the transaction, ten pounds in weight and have the labor of hauling to town and back for nothing. Accordingly, the farmer is preparing to feed his wheat to his stock.

### ANOTHER BEAUMONT GUSHER.

The Columbia Oil Company's Well Makes a Proper Debut.

REPUBLIC SPECIAL.

Beaumont, Tex., July 11.—The fifteenth gusher came in at 5 o'clock this evening. It is the well of Columbia Oil Company and is situated about 1,500 feet northwest of the Beatty well, or the well of the National Oil and Pipe Line Company.

This well is of more importance in the development of the field than any well that has come in recently, for it enlarges the proved territory by about 1,500 feet, extending the limits thus far in a northwesterly direction, adding territory enough to support perhaps seventy-five wells. The depth of this well is said to be a little more than 800 feet, which, if it is true, is something out of the ordinary. The well spouted about 1,000 barrels of oil this afternoon, says Contractor Wynne, who drilled it.

George Graves and others of Georgetown purchased a tract of the Hogg-Swayne land to-day. They will contract for the drilling of the well to-day.

# HUNDREDS EACH DAY

Epidemic of Charbon During Past Two Weeks Has Inflicted Loss of Half Million.

### FARMERS ARE PANIC STRICKEN,

Cattle Rushed to Market Regard less of Prices-Pronounced Sixth Plague of Egypt-Humans Attacked.

REPUBLIC SPECIAL.
Jackson, Mise., July 11.—A conservative estimate of the loss of live stock in the Mis-sissippi delta during the past two weeks from the epidemic of charbon places the sum at \$500,000, and thus far all efforts to suppress the disease have proven of no

danger of general infection all over the State unless prompt remedial measures are at once taken, which at present seems rather unlikely as the State Board of Health is unable to give any assistance whatever on account of the fact that the legislative appropriation is available only for the suppression of diseases epidemic among mankind.

Fifteen Thousand Killed.

In Bolivar County alone 15,000 head of live stock have been killed by the epidemic during the past two weeks, and the planters and small farmers are panic-stricken. Cattle are being rushed to market regardless of price offered, and only a day or so since a farmer at Rosedale soid fifteen head of fine Jersey cows, worth \$55 each, for \$5 each, while another farmer sold ten head of fine mules for \$140. Two days later the new owners were mourning the loss of their possessions.

Veterinary surgeons have been summoned from all parts of the South to assist in stamping out the disease, but thus far their efforts have been almost futile, owing to the fact that the Pasteur anti-anthrax virus requires sixteen days to get in its effects, and in the meantime many of the animals vaccinated become infected and death speedily follows:

More Virulent Thans Ever Before.

The form of the disease this year is more virulent than ever before, and ordinary precautionary measures have little effect. The animals are first taken with a high fever, quickly followed by a swelling of the lymphatic glands and eruptions on all parts of the body, somewhat resembling butonic plague in this latter respect. The disease is so contagious that an animal may become infected by eating the grass from a spot where an animal had died during the year previous, and instances are known where cattle have taken the disease from fodder grown over a spot where a charbon corpse had been buried several months before. In many parts of the delta the health officers are compelling the owners of live stock to burn all corpses, this being regarded as a preventative of further contagion from that foci.

Governor Longino received notice yester-lay that seventy-five head of fine mules on one of the State convict farms in Sunflower County had died of the disease, and Cap-lain John D. McInnis, chairman of the Prison Board of Control, has been sent to the scene with authority to remove all ani-

Prison Board of Control, has been sent to the scene with authority to remove all animals belonging to the State from the infected area.

Tennessee has established a rigid quarantine against Mississippi live stock, and many counties are preparing to quarantine against each other. In the stricken district planters have been almost bankrupted by the epidemic, and it is feared that the gathering of the cotton crop will be seriously crippled.

Although the disease thus far has been confined principally to animals, human beings are not free from infection, and in quite a number of instances persons, who have been working with the sick stock, have been stricken with the disease. Two negrees died from charbon in Bolivar County during the early part of the week; several others are sick with the disease, and two white persons are under treatment.

Was the Sixth Pingue of Egypt.

Charbon is better known to the medical profession under the name of anthrax, and is one of the oldest diseases known to animals, and biblical students say that its present form is the same as that of the sixth plague which was visited on the children of Israel in Egypt, and which is extensively mentioned in the thirteenth chapter of the book of Leviticus, Moses calling it by the appellation, "the plague."

The Pasteur form of treatment requires an inoculation with the weak was, after which the animal is kept closely housed until the twelfth day, and a second and stronger injection given. If the animal escapes infection for four days after this second treatment, it is regarded as immune. Although the charbon corpse decomposes very rapidly, in many parts of the delta, especially in Bolivar County, where hardly an animal has escaped its rawages, the stench that permeates the atmosphere is stiffing to an extreme degree, and it is gravely feared that much sickness among the population will follow later in the summer.

## Baby's Birth.

How many a woman dates a life of chronic invalidism from baby's birth. She tries "different doctors and different medicines" with liktle benefit. Then, fortunately her attention is called to the remarkable cures

gives the mother strength to nurse her child. It cures diseases peculiar to women and cures them permanently. women and cures them permanently.

There is no alcohol, opium, cocaine or any other narcotic in "Favorite Prescription." It is purely a vegetable prepara-tion and cannot disagree with the weak-est constitution.

Mrs. Emerson Allen, of Dorset, Ontario Co., Ont., writes: "I can truly say that I think Dr. Pierce's medicines the best I have ever used. I was in very poor health for a long time, dating from the birth of my little girl. I tried different doctors and different medicines. I derived very much more benefit from your medicines than from any other I have ever used. I took four bottles of 'Pavorite Prescription' and three bottles of 'Golden Medical Discovery,' and I always keep the 'Pellets' in the house."

Dr. Pierce's Common Sense Medical Adviser, paper bound, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr., R. V. Pierce, Buffalo, N. Y.
